- Urdu

PROFILE

Motivated web developer and recent Computer Science graduate with hands-on experience in frontend technologies. Dedicated to creating user-friendly web applications and continuously expanding my knowledge in fast-paced environments.

WORK EXPERIENCE

Web Developer (React.js) Intern   **June 2024 - Sep 2024**
At Code Aesthetics

- Developed responsive web applications using React.js, HTML, CSS, and JavaScript.
- Built reusable components and optimized front-end performance.
- Collaborated with teams in an agile environment, contributing to code reviews and daily stand-ups.

PROJECTS

News Website

- Developed a responsive news website using React and Bootstrap with real-time data fetching and dynamic news categories.
- Implemented features like infinite scroll, top loading bar, and loading spinner for seamless user experience.

E-commerce Website

- Developed a fully functional e-commerce website with a product listing and detail pages sourced from a dummy API.
- Integrated essential features such as add-to-cart functionality, quantity adjustment, item deletion, and total amount calculation, leveraging Redux for effective state management.

ACHIEVEMENTS

- Crash Course On Web Development From Great Learning
- Complete Javascript with HTML, CSS from Udemy
